

Dee and Dey are long lost
friends who met in a coffee
shop after years

heeeey! how are you?

wow! it's been ages, how are you?
how's life after going Viral? *haha*

good, what's up? what viral?

the travel app going viral!

yeah, life's been good

Can you recommend me some places?

I'm not an app but sure... where do you live currently?

I stay in Chennai now, what places do you recommend for me in July?

Why don't you visit East Khasi Hills or Udupi?

How did you come up with those?

We use rainfall data to suggest places for travelers

*That's nice....
what if there's a budget constraint?*

*we compare against the current living city and
suggest the nearest city.*

Great! What else can the app do?

*recommend places for lifestyle changes
such as retirement, relocation or
vacation*

Excellent! Any suggestions for my parents are now looking to settle down post retirement?
